CALGARY CRIME STATISTICS	i

REPORT NOTES

Most of the statistical data in this report are derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Unit. The numbers reported may change on a daily basis due to the dynamic nature of offences being reported and cleared.

To a large extent, the data in this report are based on accumulated to date information. ***The exceptions are: the Monthly Highlights, Attended Calls, Public Service Section statistics and Alarm Bylaw Unit statistics, which are based on static information (i.e.: a snap-shot in time).***

- For offences based on accumulated to date information, the number of offences recorded may be higher than previously reported (i.e. in previous statistical reports) due to late reporting. Although this does not greatly affect the number of occurrences for all offences, for some categories it may be as high as a 30-40% increase. The published data for the current period can therefore be expected to increase as time passes. *Readers should therefore exercise caution when making comparisons between historical data and current data (i.e. previous year to this year) as data for the historic period will now include late reported offences, but data for the current period will not at this time. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.*
- Likewise, late reporting affects the number and percentage of offences cleared. Cases are often cleared months and sometimes years later. Therefore, clearances for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.
- For offences based on “static” or “snap-shot” information, data totals will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report.

Please note that counted Offences are assigned to the month in which the offence "started", not the month they were reported or cleared. The method of counting is different for person crimes and other *Criminal Code* Offences. Also note that “attempted” incidents are included in these totals. For a more detailed explanation of the Offence counting procedure, please contact the Centralized Analysis Unit.

In 2004, CPS implemented a new CAD (Computer Assisted Dispatching) program which allows on-view (officer generated) calls to be separated from calls dispatched by Communications Officers.

In July 2006 the electronic reporting process with respect to 24-hour suspensions changed. This is reflected by a large decrease in Provincial Statute offences.

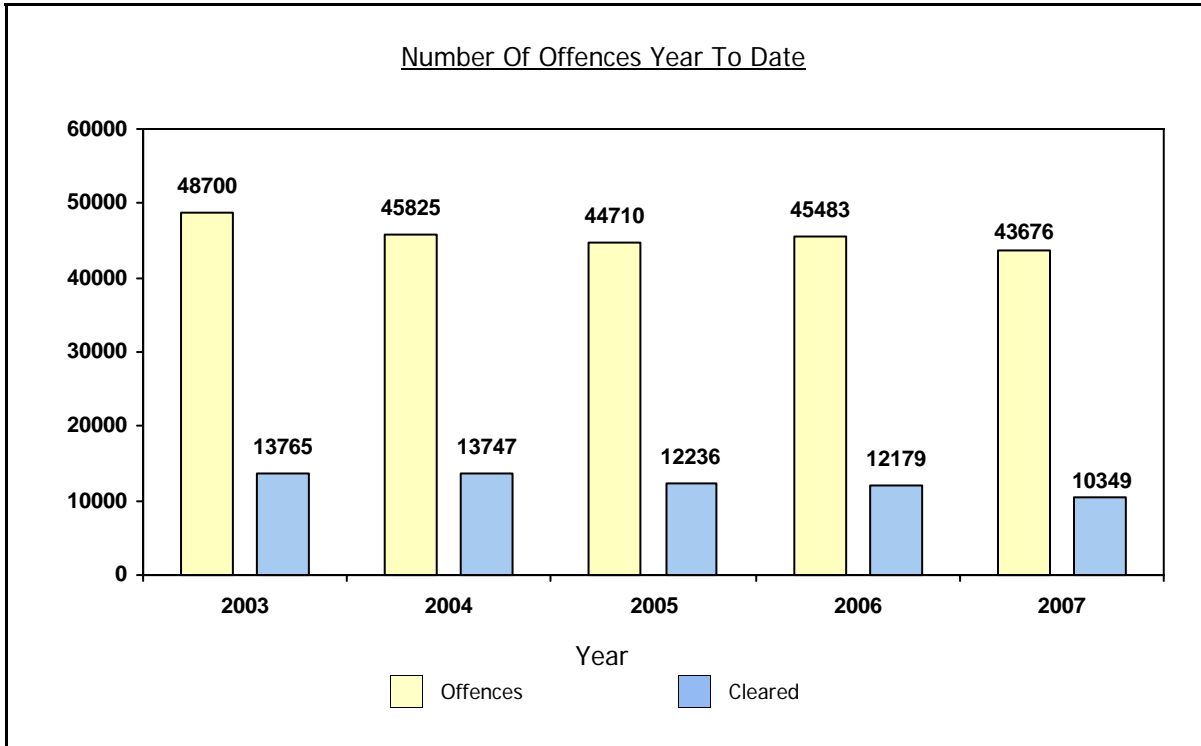

Person Crimes

OCTOBER 2007

Property Crimes

OCTOBER 2007

Drug Offences

OCTOBER 2007

* Demand includes only simple possession.

* Supply includes trafficking, possession for the purpose, cultivation and production, as well as importing/exporting.
